

# Laura Morgan

I have been headteacher at Downe Manor Primary School since September 2012. As headteacher the role of Governor is extremely important as it enables me to work with the Governing Body to make important decisions about our school. I report regularly to the Governing Board on curriculum, attainment and progress, resources and the budget and progress against the school development plan.

I am lucky to be involved in all the different committees and I value the challenging and supportive role that Governors carry out on a daily basis.
